

Create, Manage and Brand Your Online Ballots.

Informz Online Voting offers a complete solution to run successful online elections, as well as manage ballot content and voter participation.

“Informz made our annual election feel like a simple extension of our everyday marketing and communication efforts.”

Ron Skinner

Assistant Executive Director
Association of School Business Officials International

Web-based voting for every organization

Voter & Ballot Management

- > Secure voter confirmation with Vote-Submit-Confirm™ process
- > Establish voting window
- > Run simultaneous elections
- > Enable voters to add a write-in candidate
- > Create ballot rules: choices and start/end times designed to your specifications
- > System prevents voters from voting more than once
- > Automated ballot validation
- > Ballot shuffling

Ballot Marketing

- > Create candidate platform pages
- > Select from pre-designed ballot style sheets
- > Easily create or import reusable html templates

- > Smart technology detects who has or has not voted and sends tailored messaging
- > Accept offline absentee votes

Real-time Secure Reporting

- > All votes counted live
- > Vote administrators view poll results
- > Gain access to real-time, exportable reports
- > Final vote results available as soon as polls close
- > Archive election results
